The expected financial impact on the company as a result of the Judgment / Verdict

Currently, there is no financial impact until a verdict is issued. If the final verdict was in favor of the company, this will result in profits equal to the adjudged amount, in the form of reversing the related provisions for the claimed amount of developing the real estate projects in addition to any amount adjudged by the court regarding the compensations claimed by the company, which will be recognized in the company's consolidated financial statements upon execution of the verdict and receiving the related amounts. However, If the lawsuit is lost (May Allah forbids), there will be no financial impact on the company due to the recognition of the necessary provisions in the company's records.
